

LAB PROGRAM -09

Step 1: Create a Microsoft Account (if you don't have one)

1. Open **Safari** or any browser.
2. Go to: <https://signup.live.com>
3. Sign up for a **Microsoft account**.

Step 2: Sign Up for Azure DevOps

1. Open browser and go to: <https://dev.azure.com>
2. Click "**Start Free**" or "**Sign in**".
3. Use your Microsoft account to log in

Step 3: Create an Azure DevOps Organization

1. After signing in, it will ask you to **create an organization**.

If you are not able to find create organization then click on this link below ,it will directly take you to create organization page

<https://aex.dev.azure.com/me>

2. Give a name for your org (e.g., **ksakshi333333**).
3. Choose **region** (you can select the default).
4. Click **Continue**.

Step 4: Create a Project

1. Click on "**New Project**".
2. Enter:
 - **Project name** (e.g., **MyFirstProject**)
 - Visibility: Choose **Private** or **Public**.
3. Click **Create**.

Now your Azure DevOps Project is ready!
